Our Mission

Bermuda Institute is committed to encouraging its students to develop a personal relationship with God, challenging them to academic, physical and social excellence, thus equipping them for Heaven, service to God and their fellow men.

Our Motto

! Press Toward The Mark

Theme Text

Now glory be to God, who by his mighty power at work within us is able to do far more than we would ever dare to ask or even dream of, infinitely beyond our highest prayers, desires, thoughts or hopes.

May he be given glory forever and ever through endless ages because of his master plan of salvation for the Church through Jesus Christ.

Ephesians 3: 20 - 21

Science Fair

Honourable Zane De Silva, JP MP, Deputy Premier and Minister of Housing & Municipalities
Honourable Crystal, JP, Minister of Education

Bermuda Institute proudly hosted this year's Science Fair under the theme "Inventions Through the Years: 19th and 20th Century Showcase." This engaging, school-wide event highlighted the creativity, curiosity, and innovation of our students as they explored groundbreaking inventions that have shaped the modern world.

This major initiative was led by Mrs. Joan Goulbourne, Head of the Science Department, whose leadership and vision brought the event together. We extend our sincere thanks to the teachers, students, families and our community partners who contributed their time, effort, and enthusiasm to make the Science Fair a success.

We celebrate the hard work of all participants and look forward to continuing to inspire innovation and learning at Bermuda Institute.

Senior Presentation

Bermuda Institute Grade 12 Senior Class

The Senior Class Presentation is a sacred milestone that celebrates our graduates' academic achievements and spiritual growth. Rooted in the philosophy of educating the "whole person," the ceremony honors the students' journey of faith, while challenging them to live a life of service and mission. It is a time for our seniors to reflect on their transformation, express gratitude to the families and mentors who supported them, and formally commit to using their talents for God's glory as they step into their future.

π Pi Day

Bermuda Institute celebrated Pi Day on March 14 with a variety of fun and engaging activities across the school.

Pi Day was established in 1988 by physicist Larry Shaw at the San Francisco Exploratorium as a creative way to celebrate mathematics. Pi is the number that represents the relationship between a circle's circumference and its diameter, and it is commonly written as 3.14. This is why Pi Day is observed each year on March 14.

At BI, the celebration began during high school chapel with a special devotion, followed by Pi Day activities. High school students participated in a pie-eating contest, a blindfolded pie-guessing competition, featuring pies baked by the senior class, and a "Pie the Senior/Teacher" activity. The 12th grade culinary class will also host an apple pie baking competition.

The elementary students took part in a Pi Day costume contest to determine the best Pi Day outfit. Pi Day was a fun opportunity for students to enjoy mathematics, creativity, and school spirit.

Spring Week of Prayer

Bermuda Institute was blessed to host Pastor Ndubuisi Nwade during our Spring Week of Prayer. Throughout the week, he poured into our students under the theme "Transformed From the Inside Out," encouraging them to focus on heart change and a deeper relationship with God.

At Bermuda Institute, we take our responsibility of "Building Lives for Eternity" seriously. As part of this commitment, we hold two Weeks of Prayer each school year to intentionally support the spiritual growth of our students.

We are grateful for the impact of this special week and the seeds that were planted in the lives of our students.

Pastor Ndubuisi Nwade pouring into our students

Academy Connect

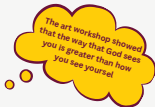

The Atlantic Union Academy Connect conference is an annual gathering designed to empower Seventh-day Adventist academy students from Bermuda, New York, Massachusetts and Maine to become spiritual leaders and influential figures in their schools and local communities. Hosted by the Atlantic Union Conference Office of Education, the event provides a dedicated space for teens to connect with Christ and one another through a blend of high-energy worship, leadership training, and social fellowship.

Beyond spiritual revival, the conference emphasizes a commitment to service and mission. This year donations of over \$600 were given by the students to support the Jamaica Relief.

Ultimately, Academy Connect aims to inspire a new generation to live boldly for God, equipping them with the character and skills needed to grow His kingdom
